Proposal works

“Making a rainbow in China”

This is a collaborate works with people who live in the city. Whoever can take part in this project. The aim of the project to explore how to have relationship with other people through the arts and what is city/nature for human beings. Rainbow is just a natural phenomenon. However people are impressed by the rainbow. To make big rainbow is sharing the same time with people, this event make us happy and make us to reconsider social networks at the same time. Preparing so much water to spread from the building to the sky. if possible, it is better to do that after the rain, or morning. After spreading the water, hit lights to the target with local people. We will see big rainbow. We welcome any art event with this rainbow. *This project can mix with any event.

>>>Technical Requirement;

A lot of water

Some lights

Supporters

>>>Venue Requiement;

If possible, in the center of the city

Or at the gallery is possible
